

Branch Pipes

With sincere intentions to preserve and uplift our reputation in the international market, we are bringing forth a precisely designed range of Branch Pipe that can be fitted with a choice of nozzles suitable to flow and operational requirement. This branch pipe is used in most Fire Brigades as the basic Firefighting Nozzle. Also referred as branch pipe nozzles, these are primarily used as the basic firefighting nozzle in fire brigades. These nozzles can be fitted with other nozzles, which make the flow and operational requirements perfect. This branch pipe is manufactured from the aluminium & is strict adhered to quality standards and tested to ensure reliable performance.
